WAYS TO AVOID ACCIDENTS

Drive in the prescribed speed limits on the various roads. Always remember that **“Speed thrills but kills”**.

Always put on helmets, seat belts and other safety equipment before driving a bicycle/ motor cycle/vehicle. Always remember that **“Safety saves”**.

Do not drink and drive. Always remember that **“You cannot hold a pen properly after two pegs, what about the driving wheel?”**

Never use mobile phones or ear phones while driving. Always remember **“A mobile call on the road may be the last call of your life”**.

Know the traffic signs, signals, lights and traffic safety rules before you hit the road. Always remember that **“Road safety rules are best tools to avoid accidents”**.

Do not drive for long hours in a stretch. Have a proper break after every 2 hours of continuous driving. Always remember that **“Man is a man and not a machine”**.
